SPECIAL MEETING

- I. Open Meeting with roll call. 3:05 PM.
- II. Pledge of Allegiance.
- III. Approval of Agenda. Doug Corner made the motion to accept the agenda as presented. Bruce Wildie seconded. The motion carried unanimously.
- IV. Discussion on locating the recycle bins on Ms. Corey's property on Main St. The special meeting was called for informational purposes. There had been complaints registered with several commission members as to the possible negative impacts of the bins being placed on the old Rosa property. There had been a lot of information and mis-information being spoken in the village since the plan had come to light. The plan was originally offered as a temporary situating of the bins, since their current location was no longer available. The Zoning Administrator and commission members felt that a special land use permit was required to place the bins on the property. After some discussion questioning whether the property was the place to have the recycle bins, it was decided to issue a temporary land use permit. The permit will begin on May 31, 2017 and end on September 6, 2017. After that period of time, a permanent special land usage permit may be applied for. That is a process of published notices, and a public hearing in which all citizens and residents will have an opportunity to express their points of view. The temporary permit contains some green snow fencing requirement on the property and keeping the property extremely clean to the best of folks' ability.
- V. Public Input-Items on Agenda. There was one question from Zoning Administrator Flynn which asked both parties, Mr. Schaffer and Ms. Corey to fill out paperwork for the recycling permit and a permit for the salon which Ms. Corey is operating.
- VI. Adjourn. The meeting was adjourned at 4:14 PM.

Respectfully Submitted,

Terri Corner, Secretary.
